MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with [REDACTED] of the
Contract Branch of [REDACTED]

25X1A

In a telephone conversation with Mr. [REDACTED] of the Contract
Division of [REDACTED] it was concluded that an
informal proposal would be received from [REDACTED] giving the same type
of information as would be included in a formal proposal. The cost esti-
mate will be given as an "order of magnitude figure." It was further
resolved that if NPIC is interested in the proposal given by [REDACTED] that a
formal proposal would be submitted after appropriate request by the
contract monitor. The requesting agency for the contract was stated as
the Logistical Support Group, HEDCOM, located at [REDACTED] and that it
was necessary for the contract monitor to determine whether or not the
solicited proposal and contract would be included in the [REDACTED] con-
tract now in existence with [REDACTED]. It was also stated that the Logisti-
cal Support Group contract would be entirely different from contract now
existing with the [REDACTED]. The above status of contract was suggested
by the Security Branch, NPIC. [REDACTED] of the Contract Branch stated
that since it seemed that the contract monitor was having trouble with
the logistics portion of the contract, the committee decided that an
informal proposal should be submitted. [REDACTED] NPIC Security,
after discussing the matter with [REDACTED] Logistics Security,
suggested that the [REDACTED] be continued and at a future date if
the contract be let to [REDACTED] that security statements be signed by those
individuals who are cognizant of the CIA affiliation.
